

# PRODUCT INFORMATION SHEET

For more product information, please refer to the Safety Data Sheet (SDS) or the lot specific Certificate of Analysis (COA).

## Conditioning Emulsifier

Product Code: 502-483X

<b>INCI:</b>	<i>Behentrimonium Methosulfate (and) Cetearyl Alcohol</i>
<b>Country of Origin:</b>	Please refer to the label on the container.
<b>Specific Gravity:</b>	0.87
<b>Impurities or Additives:</b>	None expected. Please refer to the COA for lot specific data.
<b>Allergens:</b>	Please refer to the Allergen Report.
<b>Appearance:</b>	White waxy solid.

### **Recommended Usage:**

For lotions and similar products use 1 to 5%, for hair conditioners use 1 to 10%. We generally use about 3% in lotions and find the results fabulous. This is a replacement for emulsifying wax in our recipes. If you want a more viscous cream when making a 1:1 replacement of our regular emulsifying wax, consider increasing the amount of this emulsifier by 1 or 2% and making a new test batch.

### **Shelf Life:**

Use within 1 year for freshest quality. Typical shelf life is 2 years when stored in cool, dry conditions.
